ON THE MEDICAL EXECUTIVE COMMITTEE

Ariella Glaser, MD
Emergency Medicine

Being nominated to the Medical Executive Committee as an At-Large member is a great honor. It has been my pleasure to work at Englewood Hospital in the Department of Emergency Medicine for the past 10 years. I completed my residency in Emergency Medicine at the Mount Sinai School of Medicine and then worked for two years at Jersey City Medical Center prior to coming to work at Englewood Hospital. I joined the Medical Staff in 2008. I served on the Sepsis Committee and I am dedicated to providing excellent care to our community. I live in Teaneck with my husband, Aylon, and our five children. I treasure the relationships I have formed with colleagues and I look forward to representing my colleagues' voices.

Thank you for your nomination to the Medical Executive Committee. I am the Director of Gynecologic Oncology and Robotic Surgery. I am also an Associate Professor at Mount Sinai. After graduating medical school at Mount Sinai, I completed residency training in OB/GYN at Duke University and fellowship in GYN/ONC at Mount Sinai. My research interests have included major contributions in the field of blood management, cancer prevention, minimally invasive surgery, and music and healing. I am a founding member of No Evidence of Disease (N.E.D.) - a rock band with a mission to promote women's cancer awareness. N.E.D. has raised over 1.5 million dollars for charities throughout the United States and has put Englewood in the national spotlight. I look forward to working with my colleagues
