

Pharmacy Residency Program Mission

Upon completion of the Englewood Health residency program, residents shall be competent, confident, and compassionate pharmacy practitioners delivering pharmaceutical care in different healthcare settings and will have acquired skills that improve medication safety and prevent medication misadventures. They will be able to effectively educate patients, healthcare professionals and the community, while functioning as part of an interdisciplinary care team. The resident will follow a personal philosophy of practice, be a self-directed learner, and exhibit a strong commitment to the advancement of the pharmacy profession.

About Englewood Health

Englewood Health is one of New Jersey's leading hospitals and healthcare networks. Composed of Englewood Hospital, the Englewood Health Physician Network, and the Englewood Health Foundation, our health system delivers nationally recognized care in a community setting to residents of northern New Jersey and beyond.

The hospital, founded in 1890, consistently earns high marks for clinical excellence and patient safety. It is among the top 5% of hospitals in the nation to earn the 2018 Healthgrades Patient Safety Excellence Award. The hospital is also nationally recognized for nursing excellence, earning a fourth consecutive designation by the Magnet Recognition Program® in 2016. Areas of clinical excellence include cardiac surgery and cardiac care, cancer care, orthopedic surgery, spine surgery, vascular surgery, and women's health, as well as bloodless medicine and surgery. The hospital offers an internal medicine residency program, sponsored by Hackensack Meridian School of Medicine at Seton Hall University, and serves as a training site for surgery, vascular surgery, pathology, emergency medicine, anesthesiology, and critical care medicine, as well as other medical and surgical subspecialties.

Program and Application Information

ENGLEWOOD HEALTH

Overview

The Englewood Health postgraduate year one (PGY-1) pharmacy residency program is accredited by the American Society of Health-System Pharmacists (ASHP). Residents in our program will have the opportunity to accelerate their clinical and professional growth through a series of rotations designed to provide robust experiences in patient-centered care and pharmacy practice management. The Englewood Health PGY-1 residency program prides itself on preparing residents for roles in a multitude of practice settings upon graduation and developing the pharmacy leaders of the future.

ASHP PGY-1 Purpose

The PGY-1 pharmacy residency program builds on Doctor of Pharmacy (PharmD) education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for postgraduate year two (PGY-2) pharmacy residency training.

Qualifications and Application Process

Program applicants must be a graduate of, or graduating from, an ACPE-accredited Doctor of Pharmacy degree (PharmD) program and must be licensed or eligible for licensure in the state of New Jersey. Licensure must be obtained within 30 days of the residency start date.

Applicants are evaluated based on academic performance, letters of intent, letters of recommendation, work history, prior rotations, research experience, and documented leadership roles.

Required of applicants:

- Most recent ACPE-accredited college transcript
- A letter of intent
- Three letters of recommendation
- On-site personal interview

All application materials must be submitted by **January 15** via the Pharmacy Online Residency Centralized Application (PhORCAS).
