Independent Auditors' Report

To the Board of Trustees of Englewood Hospital

Opinion

We have audited the accompanying consolidated financial statements of Englewood Hospital and Subsidiaries (the Hospital), which comprise the consolidated balance sheets as of December 31, 2023 and 2022, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the financial position of the Hospital as of December 31, 2023 and 2022, and the results of its operations, changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America (GAAP).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are required to be independent of the Hospital and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with GAAP, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Hospital's ability to continue as a going concern within one year after the date that the consolidated financial statements are available to be issued.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance, and therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the consolidated financial statements.

In performing an audit in accordance with GAAS, we:

Baker Tilly US, LLP

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks.
 Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Hospital's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the consolidated financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
 raise substantial doubt about the Hospital's ability to continue as a going concern for a reasonable
 period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Iselin, New Jersey April 24, 2024

Notes to Consolidated Financial Statements December 31, 2023 and 2022

1. Hospital and Summary of Significant Accounting Policies

Englewood Hospital (the Hospital) is a not-for-profit, teaching, tax-exempt, acute care hospital with 531 licensed beds located in Englewood, New Jersey established and operated for the delivery and promotion of healthcare. It is operated to serve the public rather than private interests. To further this purpose, the Hospital provides various programs for medical training, research and education, in addition to programs established to improve the health of the community.

Englewood Health (the System) is the parent corporation of the Hospital. Its purpose is the performance of planning activities related to the promotion of health of people within the System's service area. The System's Board of Trustees consists of, among others, certain officers of the Hospital.

Englewood Health Alliance ACO and Englewood Health ACO were formed to participate in various shared savings programs, population health activities and other assorted "value based" arrangements with government and private payers, as well as with employers, for the betterment of access to high quality healthcare services for the members of the communities which served.

Englewood Medical Associates, Inc. (EMA), is a not-for-profit corporation and wholly owned subsidiary of the Hospital, which provides physician services to the Hospital and Medical Associates of Englewood, P.C., doing business as Englewood Health Physician Network (EHPN), Physician Partners of Englewood, P.C. (PPE) and Emergency Physicians of Englewood, P.C. (EPE). EHPN, PPE and EPE were incorporated for the purpose of establishing relationships with physician practices.

The System is also the parent corporation of Englewood Healthcare Enterprises, Inc., Englewood Healthcare Properties, Inc. and Englewood Health Foundation (the Foundation). The Foundation performs fundraising and development on behalf of the System and its affiliates.

The following items comprise the significant accounting policies which are followed by the Hospital.

Basis of Consolidated Financial Statement Presentation

The consolidated financial statements include the accounts of the Hospital, EMA, EHPN, PPE, EPE, ACO and ACO2, all not-for-profit corporations which meet the criteria of consolidation with the Hospital. All significant intercompany balances have been eliminated in consolidation.

Numeric schedules presented in the notes to the consolidated financial statements are presented in thousands (000's). All numbers included in narrative portions are presented in whole numbers.

Classification of Net Assets

The Hospital separately accounts for and reports upon net assets that are donor restricted and net assets without donor restrictions. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Resources arising from the results of operations or net assets set aside by the Board of Trustees are not considered to be donor restricted.

When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, net assets with donor restrictions are reclassified to net assets without donor restrictions.

The Hospital recognizes its interest in net assets of the Foundation. Contributions to net assets without donor restrictions from the Foundation are recorded in the consolidated statements of operations and changes in net assets as a component of other revenue. Changes in the Hospital's interest in the Foundation's net assets with donor restrictions are included in the accompanying consolidated statements of operations and changes in net assets.

Notes to Consolidated Financial Statements December 31, 2023 and 2022

Use of Estimates

The preparation of the consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts in the consolidated financial statements and accompanying notes. There is at least a reasonable possibility that certain estimates will change by material amounts in the near term. Actual results could differ from those estimates.

Cash and Cash Equivalents and Restricted Cash

The Hospital classifies as cash equivalents all highly liquid financial instruments with maturities of three months or less when purchased, which are not deemed to be assets limited as to use or short-term investments. For purposes of the consolidated statements of cash flows, cash and cash equivalents and restricted cash include investments purchased with an initial maturity of three months or less.

Patient Accounts Receivable

Accounts receivable are recorded at net realizable value at the transaction price based on standard charges for services provided, reduced by contractual adjustments provided to third-party payors, discounts provided to uninsured or underinsured patients in accordance with the Hospital's policies, and/or implicit price concessions provided to uninsured or underinsured patients, and do not bear interest. Subsequent changes to the estimate of the transaction price are generally recorded as adjustments to patient revenue in the period of the change.

The Hospital assesses collectability on patient contracts prior to the recognition of net patient service revenues. Patient accounts receivable is recorded at its net realizable value. Accounts are written off through the provision for credit loss when the Hospital has exhausted all collection efforts and determines accounts are impaired based on changes in patient credit worthiness.

Assets Limited as to Use and Short-Term Investments

Assets limited as to use and short-term investments consist of cash equivalents, money market funds, certificates of deposit, U.S. government obligations and other fixed income securities. Investment securities are carried at fair value based on quoted market prices. Amounts reported within assets limited as to use represent investments whose use is restricted under terms of the Hospital's mortgage loan agreement (see Note 8).

Investment income and realized gains or losses on investment transactions are recorded as other revenue unless with donor restrictions. The Hospital's investments (see Note 4) are classified as other than trading. As such, unrealized gains and losses on U.S. government obligations and other fixed income securities that are considered temporary are excluded from revenue in excess of expenses.

Debt securities available-for-sale are carried at fair value, with unrealized holding gains and losses reported in net assets without donor restrictions. For available-for-sale debt securities in an unrealized loss position, the Hospital first assesses whether it intends to sell, or it is more likely than not that it will be required to sell the security before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the security's amortized cost basis is written down to fair value through income. With the adoption of the new accounting pronouncement, effective January 1, 2023, for debt securities available-for-sale that do not meet the aforementioned criteria, the Hospital evaluates whether the decline in fair value has resulted from credit losses or other factors. In making this assessment, the Hospital considers the extent to which fair value is less than amortized cost, any changes to the rating of the security by a rating agency, and adverse conditions specifically related to the security, among other factors. If this assessment indicates that a credit loss exists, the present value of cash flows expected to be collected from the security are compared to the amortized cost of the security.

Notes to Consolidated Financial Statements December 31, 2023 and 2022

If the present value of cash flows expected to be collected is less than the amortized cost basis, a credit loss exists and an allowance for credit losses is recorded for the credit loss, limited by the amount that the fair value is less than the amortized cost basis. Any impairment that has not been recorded through an allowance for credit losses is recognized in net assets without donor restrictions.

Changes in the allowance for credit losses are recorded as credit loss expense (or reversal). Losses are charged against the allowance when the Hospital believes the uncollectibility of an available-for-sale security is confirmed or when either of the criterial regarding intent or requirement to sell is met. There were no credit losses noted for 2023.

Inventories

Inventories are recorded at the lower of cost or net realizable value. The cost of inventories is determined on a first-in, first-out basis.

Investment in Joint Venture

The Hospital holds four investments in joint ventures in which it maintains various percentages of ownership. Approximately \$11.7 million and \$6.7 million, respectively, were recorded within other assets on the consolidated balance sheets as of December 31, 2023 and 2022.

Deferred Costs

Deferred costs include costs incurred in connection with debt financing and refinancing and are amortized by the effective interest method over the period the applicable obligation is outstanding. Accumulated amortization totaled approximately \$5.2 million and \$5.0 million at December 31, 2023 and 2022, respectively. Amortization expense was approximately \$232,000 and \$250,000 during 2023 and 2022, respectively.

Property, Plant and Equipment

Property, plant and equipment purchased are carried at cost and those acquired by gifts and bequests are carried at appraised or fair value established at the date of contribution. The carrying amount of assets and the related accumulated depreciation are removed from the accounts when such assets are disposed of and any resulting gain or loss is included in operations. Depreciation is computed using the straight-line method over the estimated useful lives of the assets. Equipment under capitalized lease obligations and leasehold improvements are amortized using the straight-line method over the lesser of the estimated useful life of the asset or lease term. Such amortization is included in depreciation and amortization in the accompanying consolidated financial statements.

Lease Obligations and Right-of-Use Assets

The Hospital evaluates at contract inception whether a lease exists and recognizes a lease obligation and right-of-use (ROU) asset for all leases with a term greater than 12 months. Leases are classified as either finance or operating. All lease liabilities are measured at the present value of the future lease payments using a discount rate. The future lease payments used to measure the lease liability include fixed payments, as well as the exercise price of any options to purchase the underlying asset that have been deemed reasonably certain of being exercised, if applicable. Future lease payments for optional renewal periods that are not reasonably certain of being exercised are excluded from the measurement of the lease liability. For all leases, the ROU asset is initially derived from the measurement of the lease liability and adjusted for certain items, such as initial direct costs and lease incentives received. ROU assets are subject to long-lived impairment testing.

Operating lease expense is recognized on a straight-line basis over the lease term and is included within supplies and other in the consolidated statements of operations and changes in net assets. For financing leases amortization expense is recorded for the ROU asset and interest expense is recorded for the lease liability. The lease term for operating and financing leases is determined based on the date the Hospital acquires control of the leased premises through the end of the lease term.

Notes to Consolidated Financial Statements December 31, 2023 and 2022

Revenue Recognition

Net patient service revenue is recognized at the amount that reflects the consideration to which the Hospital expects to be entitled in exchange for providing patient care. These amounts are due from patients, third-party payors (including commercial and governmental programs) and others and includes variable consideration for retroactive revenue adjustments due to settlement of audits, reviews and investigations. Generally, the Hospital bills the patients and third-party payors several days after the services are performed and/or the patient is discharged from the facility. Revenue is recognized as performance obligations are satisfied.

Performance obligations are determined based on the nature of the services provided by the Hospital. Revenue for performance obligations satisfied over time is recognized based on actual services incurred in relation to total expected (or actual) payments. The Hospital believes that this method provides a faithful depiction of the transfer of services over the term of the performance obligation based on the inputs needed to satisfy the obligation. Generally, performance obligations satisfied over time relate to patients in the Hospital receiving inpatient acute care services. The Hospital measures the performance obligation from admission into the facility to the point when it is no longer required to provide services to that patient, which is generally at the time of discharge. Revenue for performance obligations satisfied at a point in time are recognized when services are provided and the Hospital does not believe it is required to provide additional services to the patient.

Generally, because all the Hospital's performance obligations relate to contracts with a duration of less than one year, the Hospital has elected to apply the optional exemption provided in Accounting Standard Codification (ASC) 606-10-50-14(a) and, therefore, the Hospital is not required to disclose the aggregate amount of the transaction price allocated to performance obligations that are unsatisfied or partially unsatisfied at the end of the reporting period. The unsatisfied or partially unsatisfied performance obligations referred to above are primarily related to inpatient acute care services at the end of the reporting period. The performance obligations for these contracts are generally completed when the patients are discharged, which generally occurs within days or weeks of the end of the reporting period.

The Hospital determines the transaction price based on standard charges for services provided, reduced by contractual adjustments provided to third-party payors, discounts provided to uninsured patients in accordance with the Hospital's policy, and /or implicit price concessions provided to uninsured patients. The Hospital determines its estimates of contractual adjustments and discounts based on contractual agreements, its discount policies and historical experience. The Hospital determines its estimate of implicit price concessions based on its historical collection experience with this class of patients.

Revenue in Excess of Expenses

The consolidated statements of operations and changes in net assets include revenue in excess of expenses as the performance indicator. Changes in net assets without donor restrictions which are excluded from the performance indicator, consistent with industry practice, include net change in unrealized gains and losses on fixed income investments, contributions and transfers for capital purposes, the change in pension and postretirement benefit liabilities and cumulative effect of change in accounting standard (Topic 842).

Estimated Malpractice Costs

The Hospital is insured for medical malpractice claims under a claims-made policy and excess loss policies. The Hospital records an estimated liability for medical malpractice costs related to reported claims, and incurred claims that have not been reported. Anticipated insurance recoveries associated with reported claims are reported separately in the Hospital's consolidated balance sheets at net realizable value.

Notes to Consolidated Financial Statements December 31, 2023 and 2022

Income Taxes

The Hospital is a not-for-profit Hospital described in Section 501(c)(3) of the Internal Revenue Code (IRC) and is exempt from Federal income taxes on related income pursuant to Section 501(a) of the IRC. The Hospital also is exempt from state income taxes.

The Hospital and consolidated entities qualify as a tax-exempt Hospital under the IRC and, accordingly, no provision for income taxes with respect to these entities has been made in the accompanying consolidated financial statements.

The Hospital accounts for uncertainty in income taxes using a recognition threshold of more-likely-than-not to be sustained upon examination by the appropriate taxing authority. Measurement of the tax uncertainty occurs if the recognition threshold is met. Management determined there were no tax uncertainties that met the recognition threshold in 2023 and 2022.

Reclassifications

Certain reclassifications have been made to the 2022 disclosures to conform to the current year presentation.

New Accounting Pronouncement

In June 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standard Update (ASU) No. 2016-13, *Financial Instruments—Credit Losses (Topic 326)*. The ASU introduces a new credit loss methodology, Current Expected Credit Losses (CECL), which requires earlier recognition of credit losses, while also providing additional transparency about credit risk. Since its original issuance in 2016, the FASB has issued several updates to the original ASU. The CECL methodology utilizes a lifetime "expected credit loss" measurement objective for the recognition of credit losses at the time the financial asset is originated or acquired. The expected credit losses are adjusted each period for changes in expected lifetime credit losses. The methodology replaces the multiple existing impairment methods in current generally accepted accounting principles (GAAP), which generally require that a loss be incurred before it is recognized. On January 1, 2023, the Hospital adopted the ASU using the modified retrospective transition approach of the period of adoption. There was no adjustment to net assets upon adoption.

2. Charity Care and Community Benefit

In accordance with its mission and philosophy, the Hospital commits substantial resources to sponsor a broad range of services to both the indigent as well as the broader community. Community benefits provided to the indigent include the cost of providing services to persons who cannot afford health care due to inadequate resources and/or who are uninsured or underinsured. This type of community benefit includes the costs of: traditional charity care; unpaid costs of care provided to beneficiaries of Medicare and Medicaid and other indigent public programs.

Charity care is provided by the Hospital to patients who meet certain criteria defined by the New Jersey Department of Health (DOH) without charge or at amounts less than established rates. The Hospital reduces net revenue in accordance with these criteria. The Hospital's records identify and monitor the level of charity care it provides.

Community benefits provided to the broader community include the costs of providing services to other populations who may not qualify as indigent but may need special services and support. This type of community benefit includes the costs of: services such as health promotion and education and health screenings, all of which are not billed or can be operated only on a deficit basis; unpaid portions of training health professionals such as medical residents, students in allied health professions; and the unpaid portions of testing medical equipment and controlled studies of therapeutic protocols.

Notes to Consolidated Financial Statements December 31, 2023 and 2022

A summary of the estimated cost of community benefits provided to both the indigent and the broader community follows:

	December 31,			
	2023			2022
Community benefits provided to the indigent: Financial assistance, which includes charity care and uninsured discounts provided Unpaid cost of public programs, Medicaid and other indigent	\$	24,091 77,661	\$	21,293 70.859
care programs Community benefits to the broader community:		11,001		70,039
Nonbilled services for the community		1,651		1,479
Education and research provided for the community		17,759		14,500
Subsidized health services		131,677		122,180
Estimated cost of community benefits	\$	252,839	\$	230,311

The 2023 amounts are estimated while the 2022 amounts are based on the Hospital's Form 990 as filed with the Internal Revenue Service (IRS).

The costs of charity care and other community benefit activities are derived from both estimated and actual data. The estimated cost of charity care includes the direct and indirect cost of providing such services and is estimated utilizing the Hospital's ratio of cost to gross charges, which is then multiplied by the gross uncompensated charges associated with providing care to charity patients.

The Hospital receives payments from the New Jersey Health Care Subsidy Funds for charity care and such amounts totaled approximately \$2,000,000 and \$2,300,000 for the years ended December 31, 2023 and 2022, respectively. This amount is subject to change from year to year based on available state amounts and allocation methodologies. Charity care subsidies and distributions subsequent to June 30, 2024 are presently unknown.

3. Net Patient Service Revenue

The composition of the Hospital's net patient care service revenue by payor for the years ended December 31 is as follows:

		2023	2022		
Medicare and Medicaid Managed care Commercial and other	\$	421,214 616,744 24,702	\$	399,064 543,283 24,918	
Total	<u>\$</u>	1,062,660	\$	967,265	

The composition of net patient service revenue based on the Hospital's lines of business for years ended December 31 is as follows:

	2023			2022		
Inpatient Outpatient and physician practices	\$	261,381 801,279	\$	267,795 699,470		
Total	\$	1,062,660	\$	967,265		

Notes to Consolidated Financial Statements December 31, 2023 and 2022

The Hospital has agreements with third-party payors that provide for payment for services rendered at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

Medicare and Medicaid

Hospitals are paid for most Medicare inpatient and outpatient services under the national prospective payment system and other methodologies of the Medicare program for certain other services. Federal regulations provide for certain adjustments to current and prior years' payment rates, based on industry-wide and hospital-specific data. Medicare cost reports of the Hospital have been audited and settled for years through 2019 at December 31, 2023.

Inpatient acute care services rendered to Medicaid program beneficiaries are paid at prospectively determined rates per discharge. Outpatient services rendered to Medicaid program beneficiaries are reimbursed under cost-based and fee schedule methodologies. The Hospital is reimbursed for outpatient services at a tentative rate with final settlement determined after submission of annual cost reports and audits thereof by the Medicaid fiscal intermediary. Medicaid cost reports of the Hospital have been audited and settled for years through 2020 at December 31, 2023.

For the years ended December 31, 2023 and 2022, net patient service revenue was increased by approximately \$8,205,000 and \$12,349,000, respectively, for favorable adjustments and settlements related to prior years.

There are various proposals at the federal and state levels that could, among other things, significantly reduce payment rates or modify payment methods. The ultimate outcome of these proposals and other market changes, including the potential effects of health care reform that has been enacted by the federal government, cannot presently be determined. Future changes in the Medicare and Medicaid programs and any reduction of funding could have an adverse impact on the Hospital.

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. The Hospital believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing that could have a material adverse effect on its consolidated financial statements. Noncompliance with such laws and regulations could result in fines, penalties and exclusion from such programs.

Other Third-Party Payors

The Hospital also has entered into payment agreements with certain commercial insurance carriers and health maintenance organizations. The basis for payment to the Hospital under these agreements includes prospectively determined rates per discharge or days of hospitalization and discounts from established charges. Some of these agreements have retrospective audit clauses, allowing the payor to review and adjust claims subsequent to initial payment.

Generally, patients who are covered by third-party payors are responsible for related deductibles and coinsurance, which vary in amount. The Hospital also provides services to uninsured patients, and offers those uninsured or underinsured patients a discount, either by policy or law, from standard charges. The Hospital estimates the transaction price for patients with deductibles and coinsurance and from those who are uninsured based on historical experience and current market conditions. The initial estimate of the transaction price is determined by reducing the standard charges by any contractual adjustment, discounts and implicit price concessions. Subsequent changes to the estimate of the transaction price are generally recorded as adjustment to net patient service revenue in the period of the change. For the years ended December 31, 2023 and 2022, the impact of changes in the estimates of discounts and contractual adjustments for performance obligations satisfied in prior years was insignificant to the consolidated financial statements.

Notes to Consolidated Financial Statements December 31, 2023 and 2022

Consistent with the Hospital's mission, care is provided to patients regardless of their ability to pay. Therefore, the Hospital has determined it has provided implicit price concessions to uninsured patients and other patient balances (for example, copays and deductibles). The implicit price concessions included in estimating the transaction price represent the difference between amounts billed to patients and the amounts the Hospital expects to collect based on its collection history with those patients.

4. Investments and Assets Limited as to Use

The composition and reported value of short-term investments and assets limited as to use consist of the following:

		December 31,				
		2023	2022			
Short-term investments: Cash and cash equivalents, money market funds,						
certificates of deposit and other U.S. government obligations and other fixed income	\$	37,665	\$	11,746		
securities		57,411		55,207		
Total short-term investments	\$	95,076	\$	66,953		

Assets limited as to use are maintained for the following purposes:

	December 31,				
	2023			2022	
Mortgage reserve fund Proceeds available under lease agreements	\$	17,799 30,253	\$	18,101 55,009	
Total assets limited as to use	\$	48,052	\$	73,110	

Assets held in the mortgage reserve fund are invested in U.S. government obligations and other fixed income securities.

Assets limited as to use are held by a trustee in a mortgage reserve fund under terms of the Hospital's mortgage loan agreement (see Note 8).

For the years ended December 31, 2023 and 2022, investment income, which consists primarily of interest income on short-term investments and assets limited as to use, totaled approximately \$2,533,000 and \$935,000, respectively, and is included in other revenue in the accompanying consolidated statements of operations and changes in net assets.

Notes to Consolidated Financial Statements December 31, 2023 and 2022

5. Fair Value Measurements

The Hospital follows the provisions of authoritative guidance relating to fair value measurements. This guidance defines fair value, establishes a framework for measuring fair value under accounting principles generally accepted in the United States of America, and enhances disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or the price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. The framework that this guidance establishes for measuring fair value includes a hierarchy used to classify the inputs used in measuring fair value. The hierarchy prioritizes the inputs used in determining valuations into three levels. The level in the fair value hierarchy within which the fair value measurement falls is determined based on the lowest level input that is significant to the fair value measurement. The levels of the fair value hierarchy are as follows:

Level 1 - Fair value is based on unadjusted quoted prices in active markets that are accessible to the Hospital for identical assets. These generally provide the most reliable evidence and are used to measure fair value whenever available.

Level 2 - Fair value is based on significant inputs, other than Level 1 inputs, that are observable either directly or indirectly for substantially the full term of the asset through corroboration with observable market data. Level 2 inputs include quoted market prices in active markets for similar assets, quoted market prices in markets that are not active for identical or similar assets and other observable inputs.

Level 3 - Fair value is based on significant unobservable inputs. Examples of valuation methodologies that would result in Level 3 classification include option pricing models, discounted cash flows and other similar techniques.

Financial assets carried at fair value, excluding assets in the defined benefit pension plan, are classified in the table below in one of the three categories described above:

	December 31, 2023							
		Total		evel 1	L	evel 2	Lev	el 3
Reported at fair value: Money market funds and certificates of deposit U.S. government obligations Mortgage-backed securities	\$	9,756 71,808 2,292	\$	9,756 71,808 -	\$	- - 2,292	\$	- - -
Total		83,856	\$	81,564	\$	2,292	\$	
Cash and cash equivalents		29,019						
Total investments	\$	112,875						

Notes to Consolidated Financial Statements December 31, 2023 and 2022

	December 31, 2022							
		Total		Level 1	L	evel 2	Lev	el 3
Reported at fair value: Money market funds and certificates of deposit U.S. government obligations Mortgage-backed securities	\$	12,794 67,928 3,781	\$	12,794 67,928	\$	- - 3,781	\$	- - -
Total		84,503	\$	80,722	\$	3,781	\$	_
Cash and cash equivalents		551						
Total investments	\$	85,054						

The following methods and assumptions were used by the Hospital in estimating fair value disclosures for the consolidated financial statements:

Money market funds and certificates of deposit - The carrying amount of money market funds and certificates of deposit approximates fair value due to the short-term nature of these instruments.

The fair values for U.S. government obligations and mortgage-backed securities included in assets whose use is limited and investments are based on quoted market prices for identical (Level 1) or similar investments (Level 2).

6. Property, Plant and Equipment

A summary of property, plant and equipment follows:

	December 31,			
	2023	2022		
Depreciable assets:				
Land improvements	\$ 1,704	\$	1,647	
Buildings	192,918		192,917	
Fixed equipment	322,763		273,900	
Major movable equipment	437944		399,295	
	955,329		867,759	
Less accumulated depreciation and amortization	 610,202		558,836	
	 345,127		308,923	
Nondepreciable assets:				
Land	181		181	
Construction in progress	5,019		7,150	
Deposits on equipment	 944		1,012	
	 6,144		8,343	
Property, plant and equipment, net	\$ 351,271	\$	317,266	

Notes to Consolidated Financial Statements December 31, 2023 and 2022

Substantially all property, plant and equipment is collateralized under long-term debt agreements (see Note 8).

Depreciation expense related to property and equipment amounted to approximately \$50.0 million and \$45.0 million in 2023 and 2022, respectively.

The Hospital capitalizes interest on construction in progress. During 2023 and 2022, approximately \$901,000 and \$725,000, respectively, of net interest income was capitalized.

7. Due From (to) Affiliates

Amounts due from (to) affiliates were as follows:

	December 31,				
	 2023	-	2022		
Englewood Healthcare Properties Englewood Health Englewood Healthcare Enterprises, Inc. Englewood Health Foundation	\$ 1,913 285 (2,285) 466	\$	1,903 280 (1,669) 262		
Due from affiliates, net	\$ 379	\$	776		

The Foundation released from restrictions and contributed approximately \$4.0 million and \$4.3 million to the Hospital in 2023 and 2022, respectively, for operating purposes. Those amounts are included in other revenue.

Amounts due from affiliates result from the Hospital's payment of various expenses on behalf of these affiliates. These amounts are settled monthly or as funds become available.

8. Long-Term Debt and Lines of Credit

Long-term debt consists of the following:

		,		
		2023		2022
FHA Section 241 insured mortgage loans (a) FHA Section 242 insured mortgage loan (b) Other loan (c)	\$	61,809 30,968 19,421	\$	64,605 35,616 23,390
		112,198		123,611
Less current portion Less deferred financing costs, net		(11,810) (1,301)		(11,413) (1,533)
Total	\$	99,087	\$	110,665

Notes to Consolidated Financial Statements December 31, 2023 and 2022

- (a) In 2013 and 2015, a total of three mortgage loans were made available and are payable to Prudential Huntoon Paige Associates, LLC. The loans are insured under the provisions of the Federal Housing Authority (FHA) Section 241 program. The mortgage loans are collateralized by a second lien on substantially all of the Hospital's assets. A loan evidenced by notes in the amount of \$7,926,100, \$20,000,000 and \$50,000,000 shall bear interest at the rates of 4.95%, 4.95% and 4.99% per annum, respectively, payable in monthly installments. In April 2021, the mortgage loans were modified to achieve a more favorable interest rate of 2.63% on all three notes. The mortgage loans proceeds were used to provide funds for certain construction, renovations and improvements. Principal and interest payments are due through March 1, 2041.
- (b) As of December 31, 2011, the mortgage loan was made available through the proceeds of the New Jersey Health Care Facilities Financing Authority (NJHCFFA), Series 2002 revenue bonds, and was insured under the provisions of the Federal Housing Authority (FHA) Section 242 program. In June 2012, the mortgage loan was modified, the Series 2002 Revenue bonds were defeased and the mortgage loan was backed by the proceeds of GNMA securities. The mortgage loan is collateralized by a first lien on substantially all of the Hospital's assets. Principal and interest payments are due through December 1, 2029 with interest at a fixed rate of 2.96% of the unpaid balance until the loan is fully paid.
- (c) Other loan payable are due to a nonlending third party with payments due through April 2028 at an interest rate of 4.5%.

The Hospital has available lines of credit (\$15.0 million and \$10.0 million) with various banks. Under the terms of the line of credit agreements, interest is payable at various rates that are based on the going prime rate at the time the funds are drawn. The \$15.0 million line of credit is unsecured and expires August 31, 2024. The \$10.0 million line of credit is secured by \$4.0 million in assets of the Hospital and expires on September 15, 2024. No amounts were drawn on the lines as of December 31, 2023 and 2022.

Principal payments on long-term debt for the next five years and thereafter follow:

2024 2025 2026	\$ 11,810 12,220 12,646
2027 2028 Thereafter	13,088 10,208
Total	\$ 52,226 112,198

9. Pension Plan and Postretirement Healthcare Benefits

The Hospital had a noncontributory defined benefit pension plan (the Plan). On December 31, 1998, an amendment to the Plan was approved which ceased the accrual of further benefits under the Plan subsequent to December 31, 1998 for nonunion employees. In June 2012, the Hospital amended the Plan to freeze all future benefit accruals under the Plan while preserving all benefits accrued as of December 31, 2012 for its union and nonunion employees. The Hospital's funding policy provides that payments to the pension plan shall be equal to the minimum funding requirements of the Employee Retirement Income Security Act of 1974 (ERISA) plus additional amounts which may be approved by the Hospital from time to time.

Notes to Consolidated Financial Statements December 31, 2023 and 2022

In addition to the defined benefit pension plan, the Hospital maintains a defined contribution retirement plan covering substantially all nonunion employees who have completed one year of service, have worked 1,000 hours or more during the year and have attained 21 years of age. This plan also covers Bargaining Unit (Union) employees hired on or after January 1, 2007 who have completed one year of service, have worked 1,000 hours or more during the year and have attained age 21. As of January 1, 2013, this plan also covers Bargaining Unit (Union) employees hired prior to January 1, 2007, who have completed one year of service, have worked 1,000 hours or more during the year and have attained age 21. Employees may contribute a percentage of their annual salary, which will be matched by the Hospital, at a rate of 50%. The required levels of service and contribution percentages are as follows:

	Contrib	utions	
	Employee	Employer Match	
Years of service:			
Less than 5 years	4.00 %	2.00 %	
5 to 9 years	6.00	3.00	
10 to 14 years	7.00	3.50	
15 to 19 years	8.00	4.00	
20 to 24 years	9.00	4.50	
25 to 29 years	10.00	5.00	
30 to 34 years	11.00	5.50	
35 or more years	12.00	6.00	

Individuals may contribute in excess of the above employee contributions, up to the ERISA limitations, without Hospital matching.

For the years ended December 31, 2023 and 2022, pension expense related to the defined contribution plan was approximately \$3.9 million and \$3.6 million, respectively.

The Hospital also sponsors a defined benefit postretirement plan which provides medical, dental and life insurance benefits to eligible retirees and their eligible dependents. Eligibility for this plan is limited to a closed group of retirees who were covered by the collective bargaining agreement during employment and who met certain length of service requirements.

The Hospital's medical and dental plan contribution for retirees both under and over age 65 is fixed based on years of service. The retiree's contribution is based on the difference between the Hospital's fixed contribution and current premium, as determined annually by the carrier. The medical and dental insurance plans contain other cost-sharing features such as deductibles and co-insurance. The life insurance benefit is provided on a noncontributory basis. The Hospital's funding policy is to pay the cost of medical and dental benefits as incurred.

The Board of Trustees voted to terminate the defined benefit pension plan and the Plan was terminated effective December 31, 2021. The pension liability is to be settled in either a lump sum payment or a purchased annuity. The Plan received a favorable determination letter, dated February 2, 2023, from the IRS. The Plan made final distributions and was fully liquidated in 2023, see reconciliation in table below. There were settlement costs of approximately \$20,720,000 reported in the accompanying consolidated statement of operations and changes in net assets for 2023.

Notes to Consolidated Financial Statements December 31, 2023 and 2022

The reconciliation of the beginning and ending balances of the benefit obligation and the fair value of the plans' assets for the years ended December 31 is as follows:

						Postretirement				
		Pension Benefits			Healthcare Benefits					
		2023		2022	2023		:	2022		
Changes in benefit obligation: Benefit obligation, beginning of year	\$	109,971	\$	136,624	\$	907	\$	1,209		
Service cost *	Ψ	109,971	Ψ	170,024	Ψ	907	Ψ	1,209		
Interest cost		1,854		3,963		49		35		
Actuarial (gain)		(1,711)		(19,990)		(190)		(337)		
Benefits and expenses paid		(1,990)		(5,871)		(46)		-		
Settlements		(108,124)		(4,925)		-		_		
Benefit obligation, end of year				109,971		720		907		
Changes in plan assets: Fair value of plan assets,										
beginning of year		92,309		120,234		-		-		
Actual return on plan assets		3,524		(20,729)		-		-		
Employer contributions		14,281		3,600		-		-		
Benefits and expenses paid		(1,990)		(5,871)		-		-		
Settlements		(108,124)		(4,925)		-				
Fair value of plan assets, end of year				92,309						
Unfunded status (accrued liabilities)	\$		\$	(17,662)	\$	(720)	\$	(907)		

^{*} Includes Pension Benefit Guarantee Corporation and other administrative fees

Included in other changes in net assets without donor restrictions at December 31 are the following amounts that have not yet been recognized in net periodic pension and postretirement cost:

	Pension Benefits				Postreti Healthcare	-		
	 2023		2022		2023		2022	
Unrecognized actuarial								
loss (gain)	\$ -	\$	25,734	\$	(1,192)	\$	(1,242)	

The change in the pension and postretirement benefit liabilities to be recognized in future periods as reported in the accompanying consolidated statements of operations and changes in net assets totaled approximately \$25,685,000 and \$(1,960,000) for 2023 and 2022, respectively, and represents the combined change in the amounts for pension and postretirement benefit plans in the table above.

The current portion of postretirement health benefits approximating \$80,000 and \$101,000 are included in accrued expenses and other current liabilities in the accompanying consolidated balance sheets as of December 31, 2023 and 2022, respectively.

Notes to Consolidated Financial Statements December 31, 2023 and 2022

The projected benefit obligation, accumulated benefit obligation and fair value of plan assets at December 31, 2022 are as follows:

	 2022
Projected benefit obligation Accumulated benefit obligation Fair value of plan assets	\$ 109,971 109,971 92,309
r all value of plan accord	02,000

Net periodic benefit cost includes the following components:

	Pension Benefits				Postretirement Healthcare Benefits			
	2023		2022	2	023	2	022	
Service cost *	\$ 48	\$	170	\$	-	\$	-	
Interest cost	1,854		3,963		49		35	
Expected return on assets Amortization of unrecognized	(1,062)		(4,087)		-		-	
gains and losses	794		1,586		(239)		(212)	
Settlement	20,720		1,153		-			
Net periodic benefit	 							
cost	\$ 22,354	\$	2,785	\$	(190)	\$	(177)	

	Pension Benefits				Postretirement Healthcare Benefits			
	2023		2022		2023		2022	
Weighted-average assumptions used to determine benefit obligations at December 31: Discount rates	N/A	%	5.21	%	5.42	%	5.69	%
Expected long-term rate of return on plan assets	3.50		3.50		-		-	
Weighted-average assumptions used to determine net periodic benefit cost for years ended December 31: Discount rate	5.21	%	3.01	%	5.69	%	2.99	%
Expected long-term rate of return on plan assets	3.50		3.50		-		-	

^{*} Includes Pension Benefit Guarantee Corporation and other administrative fees

The expected long-term rate of return on plan assets assumption of 3.50% in 2023 and 2022, was selected using the "building block" approach described by the Actuarial Standards Board in Actuarial Standards of Practice No. 27, Selecting Economic Assumptions for Measuring Pension Obligations. Based on the Hospital's investment policy for the pension plan in effect as of the beginning of the fiscal year, a best estimate range was determined for both the real rate of return (net of inflation) and for inflation based on historical 30-year period rolling averages. An average inflation rate within the range equal to 3% was selected and added to the real rate of return range to arrive at a best estimate.

Notes to Consolidated Financial Statements December 31, 2023 and 2022

The Hospital's investment policies and strategies for plan assets include allocations of a diversified portfolio of equity investments, fixed income securities and cash equivalents. Though these assets are long term in nature, a reasonable amount of liquidity should be maintained.

The Hospital expects to pay future benefits under postretirement benefits as follows:

	Postretire Health Be	
2024	ф.	00
2025	\$	80 77
2026		73
2027		70
2028		67
2029-2033		274
Total	_ \$	641

For measurement purposes, the following annual rates of increase in the per capita cost of covered health care benefits were assumed for 2023:

Year	Dental	
2023	7%	5%

The rates are assumed to decrease gradually to 5.0% by 2028 and remain at that level thereafter. The Hospital's contribution for postretirement medical and dental benefits is fixed except for employee discounts and union retirees who retired prior to September 1, 1991. Therefore, the accumulated postretirement benefit obligation and interest cost component of net periodic benefit cost have a relatively low sensitivity to increases in the healthcare cost trend rates. For example, increasing the assumed healthcare cost trend rates by one percentage point in each year would increase the accumulated postretirement benefit obligation by \$749 for 2023. Decreasing the assumed healthcare cost trend rates by one percentage point in each year would decrease the accumulated postretirement benefit obligation by \$599 for 2023.

Financial assets carried at fair value included in the defined benefit pension plan as of December 31, 2022 are classified in the table below:

	December 31, 2022							
	Level 1		Level 2		Level 3		Total	
Money market funds Corporate bonds	\$	21,434 7,210	\$	- 63,665	\$	-	\$	21,434 70,875
Total assets in the fair value hierarchy	\$	28,644	\$	63,665	\$		\$	92,309

Corporate bonds are valued based on quoted market prices for identical (Level 1) or similar investments (Level 2).

Money market funds are valued at the quoted Net Asset Value of shares held by the Plan at year-end.

Notes to Consolidated Financial Statements December 31, 2023 and 2022

10. Concentrations of Credit Risk

The Hospital grants credit without collateral to its patients, most of whom are local residents and are insured under various third-party payor agreements. Accounts receivable from patients and third-party payors were as follows:

	December 31,			
	2023	2022		
Medicare and Medicaid	59 %	58 %		
Blue Cross	14	15		
Other third-party payors	24	24		
Self-pay patients	3	3		
Total	100 %	100 %		

The Hospital maintains cash on deposit with major banks and invests in money market securities with high credit quality financial institutions and limits the credit exposure to any one financial institution; however, such deposits exceed federally insured limits.

11. Liquidity and Availability

Financial assets available for general expenditures within one year of the consolidated balance sheets date, consist of the following:

	December 31,		
	 2023		2022
Cash and cash equivalents Short-term investments Accounts receivable, net Other receivables	\$ 14,512 95,076 115,596 12,542	\$	65,779 66,953 102,513 3,978
Total	\$ 237,726	\$	239,223

As part of the Hospital's liquidity management, it has a policy to structure its financial assets to be available as its general expenditures, liabilities and other obligations come due. In addition, the Hospital invests excess cash in short-term investments. The Hospital also has available undrawn lines of credit as described in Note 8.

12. Net Assets With Donor Restrictions

The Foundation follows the requirements of the Uniform Prudent Management of Institutional Funds Act as they relate to certain contributions with donor restrictions, effective upon the State of New Jersey's enactment of the legislation in March 2009. Some donor-imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor-imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. The Hospital records the contributed assets with donor restrictions as part of its interest in the net assets of the Foundation. The Foundation releases the income without donor restrictions from the related assets on an annual basis in support of Hospital health care services.

Notes to Consolidated Financial Statements December 31, 2023 and 2022

Net assets with donor restrictions are available for the following purposes:

	December 31,			
	2023	-	2022	
Health education and research Purchase of property and equipment, operational	\$ 28,849	\$	23,621	
activities and debt service	 69,684		71,946	
Total	\$ 98,533	\$	95,567	

Net assets with donor restrictions that are perpetual in nature of \$3,124,000 as of December 31, 2023 and 2022 are to be held in perpetuity, the income from which is expendable to support health care services.

Net assets with donor restrictions represent the Hospital's interest in the net assets of the Foundation.

13. Right-of-Use Assets and Lease Obligations

The Hospital is obligated under the terms of several noncancelable finance and operating leases for equipment, medical spaces and office spaces.

Lessee

ROU assets represent the Hospital's right to use an underlying asset for the lease term, while lease liabilities represent the Hospital's obligation to make lease payments arising from the lease. ROU assets and lease liabilities are recognized at the commencement date of a lease based on the net present value of lease payments over the lease term.

Certain of the Hospital's leases include options to renew or terminate the lease. The exercise of lease renewal or early termination options is at the Hospital's sole discretion. The Hospital regularly evaluates the renewal and early termination options and when they are reasonably certain of exercise, the Hospital includes such options in the lease term. Additionally, upon adoption of the new standard, the Hospital made judgments regarding lease terms for certain of its real property leases that were in month-to-month status or that contained auto-renewal clauses. The Hospital estimated a lease end date based on the required length of usage of the property and calculated a ROU asset and lease liability with the resulting estimated lease term.

In determining the discount rate used to measure the ROU assets and lease liabilities, the Hospital uses the rate implicit in the lease, or if not readily available, the Hospital uses a risk-free rate based on U.S. treasury note or bond rates for a similar term.

ROU assets are assessed for impairment in accordance with the Hospital's long-lived asset policy. The Hospital reassesses lease classification and remeasures ROU assets and lease liabilities when a lease is modified and that modification is not accounted for as a separate new lease or upon certain other events that require reassessment in accordance with Topic 842.

Notes to Consolidated Financial Statements December 31, 2023 and 2022

The Hospital made significant assumptions and judgments in applying the requirements of Topic 842. In particular, the Hospital:

- Evaluated whether a contract contains a lease, by considering factors such as whether
 the Hospital obtained substantially all rights to control an identifiable underlying asset and
 whether the lessor has substantive substitution rights;
- Determined whether contracts contain embedded leases;
- Evaluated leases with similar commencement dates, lengths of term, renewal options or
 other contract terms, which therefore meet the definition of a portfolio of leases, whether to
 apply the portfolio approach to such leases;
- Determined for leases that contain a residual value guarantee, whether a payment at the end
 of the lease term was probable and, accordingly, whether to consider the amount of a
 residual value guarantee in future lease payments;
- Allocated consideration in the contract between lease and nonlease components.

The following table summarizes the lease ROU assets and lease liabilities as of December 31, 2023 and 2022:

		2023		2022	
ROU assets:					
Operating leases	\$	98,859	\$	108,786	
Finance leases		36,657		43,522	
Total ROU assets	<u> \$ </u>	135,516	\$	152,308	
Lease liabilities:					
Current operating lease liabilities	\$	13,380	\$	12,292	
Current finance lease liabilities		18,854		22,085	
Long-term operating lease liabilities		94,634		104,290	
Long-term finance lease liabilities	-	47,070		62,190	
Total lease liabilities	\$	173,938	\$	200,857	
					

Below is a summary of expenses incurred pertaining to leases during the years ended December 31, 2023 and 2022:

	2023		2022	
Finance lease expense:				
Amortization of ROU assets	\$	15,560	\$	12,707
Interest on lease liabilities		2,654		1,588
Operating lease expense		15,600		16,111
Short-term lease expense		147		382
Total lease expense	\$	33,961	\$	30,788

Notes to Consolidated Financial Statements December 31, 2023 and 2022

Weighted-average remaining lease term (in year	ars):	
Operating leases	9.47	10.11
Finance leases	3.84	4.53
Weighted-average discount rate:		
Operating leases	1.74 %	1.62 %
Finance leases	5.62 %	5.23 %

The table below summarizes the Hospital's scheduled future minimum lease payments for years ending after December 31, 2023:

	Operating Leases		Finance Leases	
Years ending December 31:				
2024	\$	15,052	\$	22,154
2025		14,764		20,031
2026		13,970		17,193
2027		11,702		9,437
2028		10,096		2,736
Thereafter		51,807		2,235
Total lease payments		117,391		73,786
Less present value discount		9,377		7,862
Total lease liabilities		108,014		65,924
Less current portion		13,380		18,854
Long-term lease liabilities	\$	94,634	\$	47,070

The following table includes supplemental cash flow and noncash information related to the leases for the year ended December 31, 2023:

	2023		2022	
Cash paid for amounts included in the measurement of lease liabilities: Operating cash flows from operating leases Operating cash flows from finance leases	\$	14,404 2,630	\$	12,964 1,465
Financing cash flows from finance leases ROU assets obtained in exchange for lease liabilities:		14,621		13,563
Operating leases Finance leases		4,371 14,765		28,358 28,684

Lessor

The Hospital has various sub-lease agreements for medical space under which we are the lessor. These leases meet the criteria for operating lease classification. Lease income associated with these leases is not material.

Notes to Consolidated Financial Statements December 31, 2023 and 2022

14. Professional Liability Insurance

The Hospital has malpractice insurance coverage on a claims-made basis through a commercial insurance carrier. It is management's intention to continue existing coverage. The amount of malpractice coverage is \$1,000,000 per claim, with a \$3,000,000 annual aggregate. The Hospital maintains an umbrella policy with claims covered up to \$20,000,000 with an annual aggregate of \$20,000,000. In addition, the Hospital has excess liability coverage in the amount of \$5,000,000 per occurrence and \$5,000,000 in annual aggregate. The estimated liability for claims and incidents unknown but related to the reporting periods ended December 31, 2023 and 2022 was approximately \$2.7 million and \$2.9 million, respectively. These amounts are included in other long-term liabilities in the consolidated balance sheets. The Hospital believes that it has adequate insurance coverages for all asserted claims and has no knowledge of unasserted claims which would exceed insurance coverages. Approximately \$1,771,000 and \$2,131,000 representing the current portion of the insurance receivable and the insurance claims liability as of December 31, 2023 and 2022, respectively, are recorded in other receivables and in accrued expenses and other liabilities. Approximately \$10.0 million and \$11.7 million, representing the noncurrent portion of the insurance receivable and the insurance claims liability as December 31, 2023 and 2022, respectively, are recorded in other liabilities.

15. Real Estate Taxes

As a not-for-profit corporation in New Jersey, the Hospital has historically qualified for an exemption from real property taxes; however, a number of cities and municipalities in New Jersey have challenged and continue to challenge such exemption. In 2022, the Hospital signed an agreement with the City of Englewood to establish the parameters for the calculation of the payments in lieu of taxes for the years 2021 through 2025. Amounts paid in lieu of taxes were not material for 2023 and 2022. The Hospital and affiliates currently pay real estate taxes on various properties that it owns, rents or leases in many of the communities it serves.

16. Expenses by Both Nature and Function

For the years ended December 31, 2023 and 2022, the Hospital's consolidated operating expenses grouped by functional classification are as follows:

				2023		
	Health Care Services		Management and General		Total	
Salaries and wages	\$	275,752	\$	53,053	\$	328,805
Fringe benefits		55,473		10,673		66,146
Physician fees		9,747		-		9,747
Supplies and other		521,433		75,421		596,854
Pension settlement costs		17,377		3,343		20,720
Interest		6,659		-		6,659
Depreciation and amortization		42,000		8,219		50,219
Total expenses	\$	928,441	\$	150,709	\$	1,079,150

Notes to Consolidated Financial Statements December 31, 2023 and 2022

	2022					
	Health Care Services		Management and General		Total	
Salaries and wages	\$	253,609	\$	46,931	\$	300,540
Fringe benefits		47,627		9,486		57,113
Physician fees		5,910		_		5,910
Supplies and other		483,645		67,811		551,456
Interest		6,328		-		6,328
Depreciation and amortization		38,264		6,976		45,240
Total expenses	\$	835,383	\$	131,204	\$	966,587

17. Commitments and Contingencies

Various investigations, lawsuits and claims arising in the normal course of operations are pending or on appeal against the Hospital. While the ultimate effect of such actions cannot be determined at this time, it is the opinion of management that the liabilities which may arise from such actions would not materially affect the consolidated financial position or results of operations of the Hospital.

18. Subsequent Events

The Hospital has evaluated the impact of subsequent events through April 24, 2024, representing the date at which the consolidated financial statements were available to be issued.

Change Healthcare is a provider of revenue and payment cycle management that connects payers, providers and patients within the U.S. healthcare system. Englewood Hospital and its physician practice network use Change Healthcare for these important functional services. On February 21, 2024, Change Healthcare experienced a major cyber event that rendered most of its systems and services inoperable. Englewood Hospital and its physician practice network immediately shut down its connectivity to any and all Change Healthcare systems. Additionally, Englewood Hospital was able to tactically identify alternate solutions to avoid any material impact to cash flow or revenue.
